

MORE COLONY BUILDINGS TO BE LET SOON

PLANS ARE READY FOR POWER HOUSE, LAUNDRY, COLD-STORAGE PLANT AND BAKERY.

WILL AWARD CONTRACTS OCT. 18

Four Buildings Necessary Before Patients Can Be Received At Colony.

The State Board of Administration, which is in charge of the erection of the State Colony for Epileptics north of Dixon, are now ready to proceed with the construction of four more buildings, and arrangements have been made to receive and open bids on the additional structures at the office of the Board in the Capitol at Springfield at 3 o'clock Monday afternoon, October 18.

The four buildings on which bids are being asked are necessary before patients can be received at the institution, and the fact that the contracts for these four buildings are to be let soon bears out the statement of Fred J. Kern, president of the board, that the board hoped to have the colony ready for the acceptance and treatment of patients next year.

The four buildings which will be awarded in October are:

The power house building, cold storage building, laundry building and bakery building.

The plans and specifications for the structures have been completed and are now obtainable at the office of State Architect Dibelka.

INJURED BROTHER IS ON WAY TO RECOVERY

CHARLES KINCAID MAY NOT PROSECUTE MAN WHO STABBED HIM

Freeport Sept. 16.—Charles Kincaid, who was the victim of an attack made upon him by his brother Louis Tuesday morning at their home, shows slight signs of improvement. However, the attending physicians do not state that he is out of danger. Kincaid is very weak from loss of blood and when seen at the hospital today he stated that he did not care to talk about the affair as he was very weak and that his throat troubled him a great deal. To his physicians yesterday he stated that he did not care to prosecute his brother, but today when Chief Root and State's Attorney Manus called upon him he stated that he would not make any statements at this time but as soon as he felt able to talk he would tell all.

TO START RIP-RAP ON NORTH RIVER BANK

SUPT. GEO. GITT TO HAVE STONE PLACED TO HOLD NEW FILL.

Superintendent of Street Geo. Gitt will put a force of men at work tomorrow morning ripping the north bank of the river just below the dam where the recent fill was made to restore Water street from the Galena avenue bridge east along the river bank. The stone foundation of the old building torn down to the east of the Brown shoe factory is to be used for the ripping. This will give work for a number of men and teams. The water in the river is quite high and it is feared that the loose dirt of the fill may be taken out.

CHICAGO TOURISTS STAYED HERE

Mr. and Mrs. Fox Ordered Leather Goods From Dixon Man.

Mr. and Mrs. F. L. Fox arrived here Tuesday in their auto enroute to San Francisco. On account of the bad roads they remained in Dixon until yesterday before continuing their trip. Mr. Fox is a novelty salesman, carrying a line of leather novelties made by Paul Dixon of this city. While in town he left a nice order for leather watch chains, belts and bag tags with Mr. Dixon.

Amboy Races Are On; Track Worked All During Night

Good Crowd Present When First Race Was Called - Fast Track Friday

(Special to Telegraph)
Amboy, Sept. 16.—The first races of the Amboy fair were held this afternoon. By energetic work, in which shifts of men were kept steadily at it, the track—the best half-mile speedway in the state—was gotten into condition for the events of the afternoon and with no more rain the oval will be in the greatest possible shape for tomorrow's speed events.

All night long men and teams were at work with drags and rollers on the track and this morning the work was not slackened for an instant. As a result the horses were given a fairly dry footing this afternoon with prospects for a very fast track tomorrow.

A good crowd was in attendance when the first race was called at 2:30 this afternoon, and there is a determination everywhere to make the Lee county fair a success in spite of the weather man.

Tomorrow's race program is:
2:14 pace, purse \$350.
2:15 trot, purse \$350.
2:20 pace, purse \$350.
2:30 pace, purse \$350.
Five mile motorcycle race.

AMERICAN TRIES TO SAVE MANY PEOPLE

JOHN SNODGRASS, CONSUL AT MOSCOW, WANTS PRISONERS SENT TO GERMANY.

HARDSHIPS OF PEOPLE DESCRIBED

Stockholm, Sweden.—Correspondence of Associated Press.—The American consulate-general at Moscow, which has, since the beginning of the war, been delegated by the German government to handle German civil prisoners in Russia, is now making a determined effort to return these prisoners to Germany so they may not suffer the hardships of another winter in the interior of Russia. Although these prisoners have not been the victims of actual cruelty on the part of Russian officers, their condition has been indescribably wretched. Hundreds of them have died from cold, starvation and disease.

A recent order issued by Prince Usupoff, the governor of Moscow, stated explicitly that every German or Austrian of non-slave origin regardless of age, state of health, or any mitigating circumstances whatever, must leave Moscow before August 14 either for Germany or for one of the interior governments which have been selected for the internment of civil prisoners and which already harbor over a hundred thousand men, women and children.

This order meant certain death for scores of Moscow residents whose physical condition was such that even a short journey under the best conditions would have been dangerous. John Snodgrass, the American consul general, who had made special study of these cases, appealed to the governor of Moscow for discrimination in the execution of the order of expulsion, but popular feeling has run so high against the German and Austrian subjects in Russia that it was stated that exceptions could not be made. An American correspondent sitting in the office of the consul general watched the stream of foreign subjects who were suddenly confronted with expulsion from the country which they had learned to consider their own. Most of them, although German or Austrian subjects, had lived so long in Russia that they were thoroughly Russian in their sympathies and some of

ASHTON INSURANCE RATES ARE LOWERED

INSPECTION BUREAU PLACED THAT CITY IN LOWER CLASS THIS WEEK

Ashton has been re-rated by the Fire Insurance Inspection Bureau and has been put in a different class on account of the installing of the water works system last spring. The new rates became effective Monday morning, and each insurance agent in the city is in possession of new rate books. The reduction runs all the way from ten to fifty per cent, although there are some places where the rate was practically unchanged, and in a few instances, raised.

In the line of public buildings the cheapest rate is on the school building, the new rate being only 35 cents. The churches got a ten per cent reduction, their rate being reduced from \$1.00 to 90 cents, except the United Evangelical church, which is a brick structure, which was reduced from 90 cents to 80 cents.

IMPROVEMENT NOT SATISFACTORY

Lee Ray Is Still Irrational—Miss Howell's Condition Encouraging

RIDER THROWN INTO CROWD ON MIDWAY

NEAR TRAGEDY AT MOTORDROME ON THE AMBOY FAIR GROUNDS TODAY.

ROCK FALLS FOLKS INJURED

(Special to Telegraph)
Amboy, Sept. 16.—Albert Harms and his sister of Rock Falls were more or less injured today in what came near being a bad accident at the motordrome on the midway at the Amboy fair grounds.

One of the riders in the dome, whose name could not be secured, lost control of his machine and was hurled over the edge of the saucer-shaped enclosure, the machine dropping back into the track.

The rider flew through the air a considerable distance, brushing several spectators, and striking Harms and his sister with some force, knocking them both to the ground. Neither was seriously hurt, the young man being the most severely injured with a bad cut over the eye and several body bruises. The rider escaped with some bruises and a general shaking up. He has left the city, it is reported.

HIGH WATER TAKES FILL FROM NORTH BANK OF RIVER

RIVER HAS RISEN STEADILY TODAY—IS AT EXCEPTIONAL STAGE.

It was discovered this afternoon that high water was washing out the fill on the north bank of the river which was recently made, and on which riprapping is to start tomorrow and it is estimated that over 100 loads of the earth has already been washed away.

The water in Rock river in this city has been rising rapidly in the past 48 hours and from 7 a. m. to 1 p. m. had come up at the rate of nearly an inch per hour. The water has raised the tail water to four and one-half feet and is affecting the power from the turbine wheels at the electric light station and the auxiliary steam plant of the company at Sterling is in operation to assist in carrying the load.

The heavy rains in southern Wisconsin Monday swelled the streams emptying in Rock river and this has about reached Dixon and together with the heavy rains of the past 24 hours in this locality has caused the river to rise fast. The measurement of the headwater at 7 a. m. today was nine and one-half feet, while at 1 p. m. it stood at ten feet, one inch and no prospect of its abating.

Much debris is flowing and this indicates that the bottom land along the river is under water. The large tree that lodged between the Galena avenue bridge and the dam several weeks ago when the river was high, in July, was dislodged during the night and carried down stream. It was thought at one time that the only way the tree could be dislodged would be by putting dynamite under it.

THREE FINED BY HANNEKEN

Police Court Was Busy—Beggars Drew Small Assessment.

Three cases were tried this morning in the police court presided over by Justice A. H. Hanneken. Joe Shanley was taken in charge last evening by officers while begging on the street and pleaded guilty this morning and was given a fine of \$3. L. T. Dutton drew a similar fine. Elmer Rittenauer who was in court for the second time within a few weeks, was assessed a fine of \$5 and costs.

WILL SURVEY FOR PAVEMENT IMMEDIATELY

HIGHWAY COMMISSIONERS AND ADVISORY BODY REACH THAT DECISION.

GET PRELIMINARY WORK DONE

Thus, If Tice Law Is Upheld, Bonds Can Be Sold and the Work Started in Spring.

Highway Commissioners Fisher, Rosbrook and Lennox met this morning in session with the advisory board appointed some months ago to aid them in pushing through the big paving project on the Lincoln Highway and the colony road. W. J. McAlpine, Commissioner Geo. Smith, Rev. A. B. Whitcombe and Frank Coe were present, the other member of the board, Wilbur Crawford, being unable to be there. O. H. Martin acted as chairman of the meeting. The net result of the session, which was held early today at the Elks club, was the decision to go ahead with the preliminary work of the paving job, such as the survey of the roads to be bricked, etc. This was definitely decided and this important part of the work will be done this fall so that when legal obstructions are cleared and the bonds are sold, it will be possible to proceed at once to the advertising and letting of bids and the actual work. This wise preliminary action will save many weeks of delay in the spring.

Width of Road?
Considerable discussion followed the raising of the question of the proper width of such a road as will be built. Some of the men present were of the opinion that the road should be as wide as 18 feet. Others thought 16 was the proper width and still others maintained that 12 feet would be ample, with a shoulder of macadam on each side. The amount of money available under the bond issue will be insufficient to build the road as wide as some of the men want it, if it is to cover the mileage planned—from one township line to the other, exclusive of the city, on the Lincoln Highway, and it is the opinion of many men who have given the matter thought that it will be wiser to build the road reasonably wide and build it all the way than to have a great wide road that only covers half the distance.

The supreme court is expected to decide the Tice road law matter in October, and with a favorable decision, it will be possible to sell the bonds at a good figure at any time thereafter. If the decision is unfavorable it will be necessary to hold another election.

British Condemn American Cargoes Valued At Millions

Chicago Packers Are Heavy Losers By Action Of Prize Court

(Associated Press)

London, Sept. 16.—The British prize court today condemned the greater part of the American products forming the cargoes of four steamships which had been seized. The products, valued at several millions of dollars, were declared forfeited to the crown.

The court held that the products were destined for Germany and disallowed sixteen claims, including those of Morris, Armour, Hammond, Swift and Sulzberger of Chicago. It allowed eight claims, including those of the Cudahy company and others which were to Danish consignees. The Chicago packers valued their products at \$17,000,000 and the cargoes will be a complete loss to them as no advance payments had been made. The cases had been pending several months.

SEN. LEWIS PROTESTS AGAINST ALLIES LOAN

SAYS IT WOULD INVITE A PANIC AND BESIDES AMERICANS NEED THE CASH.

JAMES HILL TO HELP FLOAT IT

(Associated Press)

New York, Sept. 16.—United States Senator James Hamilton Lewis of Illinois today made public a letter he had sent to Secretary of the Treasury McAdoo protesting against the proposed billion dollar loan which the commissioners of the Anglo-French allies seek in this country.

Senator Lewis says in the letter "a loan would invite repetitions of the panics of 1873 and 1903; would take one-half of all the available cash from the American people and that this money is needed here by business men and farmers."

Millionaires Interested
Standard Oil millionaires, including John D. Rockefeller, Jr., are considering the terms of the proposed loan, with the view of participating in it.

New York, Sept. 16.—After two days of visiting in the financial district in which they had sounded the views of many local and out of town financiers, the members of the Anglo-French financial mission met a number of prominent bankers at the Hotel Biltmore.

Because of the threatening letters received and the fear of some demonstration by weak minded individuals incited by incendiary publications and advertisements, the meeting was conducted with the greatest secrecy. The men who met the visitors arrived at the hotel before 6 o'clock singly and were shot up to the apartments on the eighteenth floor without any delay.

Efforts to learn who were there were unavailing, only the names like Mr. Morgan and Mr. Davidson becoming known. The only word to come down from the floor was that the members of the mission would be engaged until at least 11:30 o'clock at night and after that would retire.

EMPLOYEE AT CEMENT PLANT ELECTROCUTED

LOUIS BARACKSKY MET TRAGIC DEATH AT EARLY HOUR TODAY.

GOT SHOCK FROM STARTING BOX

Was Starting Electric Motor on Crushing Machine When Current Struck Him.

Louis Baracksky, an employee at the Sandusky-Portland cement plant east of the city, was electrocuted shortly after 6 o'clock this morning by accidentally coming in contact with a live wire.

The accident happened, according to information available, between the change in the shifts of workmen, and late this morning no one had been found who had seen it.

Pulmotor Used.

Baracksky was found shortly after he had received the current and was rushed to the Dixon hospital, where everything possible was done to resuscitate him. The pulmotor was used in an effort to restore respiration, but the shock had been too severe, the unfortunate man being past medical assistance.

From Starting Box.

It developed in the investigation made by Superintendent Wuerth that Baracksky received the fatal shock from the starting box of one of the two machines in the crushing room. Both machines are operated by electric motors, controlled by starting boxes, and the victim had charge of one of the machines.

The man on the other machine, a foreigner whose name could not be ascertained today, had started his machine and turning saw Baracksky standing in front of the starting box to his machine, with hand upon the switch handle.

Got Shock Through Body.

This man, wondering at Baracksky's motionless attitude, walked to him and took hold of him to shake him. As he did so he received a heavy electric shock through Baracksky's body. The action broke Baracksky's hold on the switch handle and he fell to the floor, dead.

Coroner's Inquest.

Coroner George Stephan arrived from Ashton shortly before noon and the inquiry into the death of the unfortunate man was taken up at 1:30 o'clock. The following jury was empanelled: James Haley, foreman, C. O. Dillon, Frank Coe, Joseph Rueland, Lee Dysart and G. B. Jack. Several witnesses were examined and the jury returned a verdict that Louis Baracksky came to his death by an electrical shock while in the act of throwing a switch at the starting box of a crushing machine at the plant of the Sandusky-Portland Cement company.

Leaves Family.

Baracksky, who was over 38 years of age, is survived by his wife and five children, four boys and a daughter about a year old. He and his wife recently purchased the old Phalen home near the cement factory and Mrs. Baracksky has been conducting a boarding house there while her husband has kept up his work in the factory.

Funeral Saturday.

The funeral will be held Saturday at 10 a. m. from St. Patrick's church, with interment at Oakwood cemetery.

TRAIN ROBBER GOT BOOTY IN INDIANA

EXPRESS MESSENGER ROBBED OF \$5,000 ON TRAIN NEAR INDIANAPOLIS.

(Associated Press)

Indianapolis, Sept. 16.—A robber boarded a Lake Erie & Western passenger train at Arcadia, twenty miles northeast of here, last night, pointed a revolver at the express messengers, gathered together booty valued at \$5,000, it is said, and when the train reached Cicero pulled the bell cord and jumped as the train slowed down. Two confederates were waiting for him in an automobile and they escaped.

Author of "At Good Old Siwash"
DICTIONARIES.

The dictionary is the official warehouse for words that aren't being used.

The English language contains about 200,000 words, some of which are not used once a year, even by lecturers who are trying to explain sociology to a women's club. If any one man had to remember all of these words he

would become demented under the strain and would be taken tenderly away while trying to buy rutabagas from the vegetable man in words of seven syllables. For this reason the dictionary was invented by Samuel Johnson and several annexes were added by Noah Webster. It is a neat, strong volume weighing about ten pounds and non-explosive.

The dictionary contains all the words which have gotten into respectable company in the English language. These same words when recklessly arranged have caused wars, murders and lectures on free love. But the dictionary is strictly neutral. It arranges its words alphabetically so that the entire collection can be read, even by a hot-tempered man, without causing

the slightest ill-feeling.

The dictionary has about 2,000 pages and on each page there are many words which would cause a successful business man to blink violently and change the subject. If a common citizen were to learn any one page of the dictionary thoroughly he could introduce words into his conversation which would cause professors to view him with a look of respect and invite him to tea. But no one does this. We prowl the fields hunting for four-leafed clovers and are joyous and gay when we find an edible toadstool after half a day's search; but no one thinks of breaking into the dictionary and hunting out a few dozen swivel-jointed, double-action, submersible words with which to soak a proud stranger in a moment of need.

With the aid of a dictionary, a man might compose an eloquent letter, not a word of which could be read by a college graduate. On the other hand, a baseball reporter can compose a thrilling story, scarcely any word of which can be found in the dictionary. In spite of its capacity the man who puts all his faith in this fat and dignified volume finds himself full of wonderment and ignorance whenever he attempts to fathom a few swift remarks between boarding school girls or college gentlemen pursuing knowledge with megaphones and football pennants.

NEWMAN ERB TAKES POISON BY MISTAKE

Railroad President May Die of Mercury Effect.

New York, Sept. 16.—Newman Erb, financier and president of the Minneapolis and St. Louis Railroad company, is critically ill at his summer home in Elberon, N. J., suffering from mercury poisoning. A telegram message from there is to the effect that hope for his recovery has about been abandoned. The financier came to New York Tuesday and attended a bankers' meeting. He took a train for home, which left about 3 o'clock. He was suffering from a severe headache and when about five miles from his home station he took what he supposed was a headache tablet. He became rapidly ill and before the train reached the station he fell forward in his seat.

Trainmen assisted him and he was taken at once to his home upon the arrival of the train. His daughter, Mrs. Jessie Mayer, took immediate charge of him and summoned experts from this city. Everything possible was done to relieve the sick man but his condition did not improve.

Mr. Erb is sixty-seven years old and was born in St. Louis.

Warns Of Great Danger To Wheat From Hessian Fly

The following bulletin by Stephen A. Forbes, State Entomologist, should be read by every farmer, as it issues a warning regarding the preservation of the wheat crop of the state:

On October 2 of last year I sent a thousand Illinois papers a brief notice of the fact that the volunteer wheat that was growing in the stubble fields was very heavily infested throughout the state by an early generation of the Hessian fly, present there in all stages from the young larva or maggot to the winged insect, just beginning to emerge and lay its eggs on the leaves of the young wheat of the regular sowing. Farmers were consequently earnestly advised to plow under all volunteer wheat without delay to prevent a disastrous spread of the new crop. How generally this warning and advice took effect last fall I have no means of knowing; but the conditions of this year require me to repeat both with increased emphasis. The unusually wet summer throughout the state has given extraordinary opportunity for an abundant growth of volunteer wheat, and this is now widely and heavily infested with the Hessian fly about two weeks earlier than was the case last year. My field men in central and southern Illinois have been reporting the presence of the fly in volunteer wheat since the middle of August; and a summary of the latest of their reports, put into my hands today, will illustrate the conditions found. From Sept. 3 to 11 Mr. S. C. Chandler searched 25 fields of wheat

stubble in the counties of Randolph, Johnson, Perry, Marion, Jefferson, Williamson, White and Saline. Carefully examining 741 plants of volunteer wheat in these fields for eggs and larvae of the Hessian fly, he found 6047 eggs, averaging a little over 8 to the plant—and 666 larvae or maggots—a little less than 1 to the plant.

Field reports began to reach me late in August from Central Illinois localities to the effect that the oldest maggots in the volunteer wheat were then beginning to change to the flaxseed stage; and with the weather of the present time, these are probably already beginning to send forth an early fall generation of the winged insects ready to infest young wheat. The great majority of the flies in the volunteer wheat are, however, still in the egg stage, and many that are already hatched are much too young to survive if the plants on which they are living are destroyed.

It thus clearly becomes the duty of every Illinois farmer having volunteer wheat growing in his stubble or along the borders of his newly plowed fields to destroy these plants with the least possible delay, thereby both protecting his own crop from immediate infestation from the winged flies which are beginning to come out, and doing his part as a member of his community to save next year's crop from serious injury.

CHOOSE MANAGERS OF DIXON UNION TEAMS

WOLD TO HEAD FOOT BALL BUNCH. WEINER IN CHARGE BASKET BALL TEAM

FIRST GAME SATURDAY, SEPT. 25

Foot Ball Team, Which Promises Great Strength, Will Meet Mendota Then

Leamon Wold was elected manager of the Dixon union high school foot ball team at a meeting of the athletic association held after school Wednesday evening and at the same time Clinton Weiner was chosen manager of the basket ball team. Both organizations promise to be of exceptional merit this year.

Over thirty candidates are out after positions on the foot ball team and a classy bunch will be ready for the first game of the season with the Mendota high, one week from Saturday. The back field promises especially well. Lenox will be at quarter, while Wold and Weiner will fight it out for full back. Brooks and Vaughan are probably slated for the halves, although Vaughan may be shifted to his old position at end at which he starred for Dixon last year.

The line material is heavy, as high school teams are judged. The end position will be the hardest for the Dixon teams to fill at present. Harry and George Schuler, Will Barge and Sterling Schrock are the candidates. Harry Schuler is at present showing that he has the making of a good end, being fast and a good tackler, and has demonstrated ability

to handle the forward pass.

Root and Lawton are battling for the center job, while Rock and Worsley seem to be the pick of the guard material. Bartholomew, Hynegerson and Cahill are the three most likely looking of the men trying for the tackle jobs.

JUDGE LANDIS HERE

Judge Kenesaw Landis of the Federal court came out from Chicago yesterday to spend a few days in this city resting up. He motored out to Hazelwood yesterday afternoon. He will hold a session of the Federal court at Freeport in the next few weeks.

Attorney A. G. Harris was in Sterling yesterday on business.

Extras To Small-Tire Users

Sizes 30 x 3 1/2 and 30 x 3

Extra Size

This year we are building our small-size tires larger than any rival. We have added 20% to the air capacity. And that is what carries the load.

Large tires as you know last longer than small tires, used under like conditions. So this extra size means extra mileage for you.

Extra Strength

We have added 30% to the rubber in the side walls just above the rim. That's where constant flexing breaks so many tires.

We have made new molds for the small-size tires, adopting a new design, which

GOODYEAR
AKRON, OHIO
TIRES

also combats such breaks. These new extras alone will this year cost us \$317,000. Yet Goodyear prices were this year enormously reduced.

Added to This

These new extras are added to the tires which hold top place. For years, on sheer merit, Goodyear tires have outsold any other. These small-size tires of Goodyear make are always four-ply tires. Their anti-skid tread—the Goodyear All-Weather—is always double-thick.

Now we add three more extras, to give you still more mileage, less upkeep and less trouble. The greatest tire value in the world now lies in these Goodyear tires. You can't be fair to yourself and not get them.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup
Easily and Cheaply
Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Pour the 2½ ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of \$2. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Brierton of the Bend, Mr. and Mrs. Ray Shaver of South Dixon, Mr. and Mrs. Dale Shaver of Macon, Mississippi, Mr. and Mrs. Sylvester Brierton and family, and Mr. and Mrs. Amos Eberly of Palmyra, and Mr. and Mrs. John Blake of Wyand, Ill., were entertained at dinner by Mr. and Mrs. Albert Brierton.

12th Wedding Anniversary
Mrs. Eliza English entertained at dinner Sunday at the Dixon Inn in honor of the twelfth wedding anniversary of Mr. and Mrs. Allan Smith. The guests other than Mr. and Mrs. Smith were their two sons, Myron and Allan, Jr., Mr. and Mrs. J. E. Byington, Mrs. Teal Swarthout, Mrs. S. E. Smith, Mrs. E. L. Byington, and Attorney Clyde Smith.

Parlor Club
The Parlor club, O. E. S., will hold its first meeting after the summer vacation on Monday afternoon at Masonic hall. Mrs. Tessie Cooling and Miss Inez Palmer will be hostesses.

Katharine Sage to Wed
Invitations announcing the approaching marriage of Miss Katharine Sage, the daughter of Rev. and Mrs. John Charles Sage, have been received by Dixon friends. Rev. J. C. Sage was rector of St. Luke's church here a number of years ago and Miss Katharine has many warm friends and admirers here. Arthur Pratt Faber is the groom to be. The wedding will occur Tuesday evening, the fifth of October, at six o'clock in St. John's church, Keokuk, Iowa.

O. E. S. Will Meet
Dorothy Chapter, O. E. S., will hold a regular meeting at Masonic hall tomorrow evening. There will be work and every member is urged to attend.

Visited in Rockford
Mrs. A. W. Goodrich returned home this morning from a ten days' visit at Oregon and Rockford. At Rockford, Mrs. Goodrich visited with her daughter, Mrs. Nellie I. Dixon.

K. L. C. E. Meeting
The business meeting of the K. L. C. E. to have been held a week ago and postponed on account of the weather will be held tomorrow evening at the Grace Evangelical church.

Social Circle
Mrs. Walter Brauer of near Prairieville delightfully entertained the Prairieville Social Circle at her home Wednesday afternoon. A goodly number were present and much work accomplished. Plans were made to hold a doughnut sale in Sterling in the near future. A social session with the serving of refreshments followed the business meeting. Mrs. W. H. Martin of Gap Grove will be hostess at the next meeting.

Attend Amboy Fair
Mr. and Mrs. Hollis Prescott, Mr. and Mrs. R. H. Esby, Miss Emma Kentner, Mr. and Mrs. Guy Miller, John Ortgiesen, and John Loftus of Dixon and David Sweet of Prairieville are among those attending the Amboy fair today.

Dined in Grand Detour
Misses Marie Madden, Ruby Schrock, and Jesse Wold and Gordon Tingle motored to Grand Detour last evening and were dinner guests at the Sheffield house.

Surprise Mrs. Block
The Sunday school class of the Presbyterian church surprised their teacher, Mrs. W. S. Block, at her home last evening. A delightful evening was enjoyed, and during the evening, refreshments of cream and cake were served. Mrs. Block was presented by the class with a friendship bracelet, each member of the class giving a link with her initials inscribed, as a remembrance token.

Announced at Luncheon
Mrs. Harry Warner entertained this afternoon at bridge luncheon for Miss Hazel Todd of Warren, O. A surprise feature of the afternoon was the announcement of the approaching wedding of Miss Todd to Douglas Meaden of Springfield, Ill. The wedding will take place on Saturday at the home of relatives in Chicago. Mr. Meaden is connected with the state utilities commission.

Guests at Johnson Home
Mr. and Mrs. W. E. Ambrose and baby are expected to arrive tonight to spend the coming two weeks at the home of Mrs. Ambrose's father, Garrett Johnson. Mr. Ambrose is in the employ of the I. N. U. Co. at Geneseo and is on a two weeks' vacation.

From Motor Trip
Miss Margaret Finkler returned home from a two weeks' auto trip from Peru to LaSalle and Peoria. Her cousin, Miss Ida Robertson, returned with her for a two week's visit.

Entertained in Polo
Miss Harriet Schumm was entertained in Polo today as the guest of Miss Nina Hildebrand.

Senior Dance
The S. S. Dixon high school senior class dance of tomorrow evening promises to be a most enjoyable affair. A committee on decorations has been busy making Rosbrook hall attractive and other plans for the evening are in full swing. The dance is being given in honor of the alumni who will leave Dixon soon for higher halls of learning. The Marquette orchestra will furnish the dance music.

Entertained at Dinner
Mrs. James Lennon and Mrs. Frank Ballou entertained Rev. and Mrs. G. W. Stoddard and family of this city and Rev. E. O. Bradshaw of Chicago at dinner last evening.

From Portland, Ore.
Mrs. Lager of Portland, Oregon, is a guest of Miss Olga Brown of the Chicago Road. Mrs. Lager will be remembered by many as Miss Margaret Brehaut, at one time teacher in the Red Brick school house in this neighborhood.

Davis Again Heads Barbers
Peoria, Ill., Sept. 16.—T. B. Davis of Decatur was re-elected president of the Illinois Journeymen Barbers' association at the closing session of the sixth annual state convention. Springfield was selected as the 1916 convention city.

Danville, Ill., Sept. 16.—James J. West, Chicago broker, and Oliver A. Harker, cashier of the First National bank of Johnson City, were found not guilty by a jury in the United States District court under instructions of Judge Francis M. Wright. They were charged with violating the federal banking laws by misappropriating funds of the bank.

Later Harker was placed on trial on a similar charge. Another indictment charges Harker and Henry J. Froelich, another Chicago broker, with violations of the banking laws, and a fourth indictment charges Harker, West and Froelich with conspiracy to wreck the Johnson City bank.

MODERN TENNIS.

Tennis, as it is played today, has found a new place in the field of sports. This is one of the important things that the national championship tournament that has been in progress for the past week at Fort Hills, and which reached its climax Tuesday in the overthrow of the man who was rated as the world's best player of the game, has demonstrated conclusively.

The game itself has changed. It is no longer an "afternoon tea" sport, but as played now is a fast, grueling game which requires all the vigor that can be put into it. Not long ago the champions were middle-aged men who played exclusively a "scientific" game. Today a nineteen-year old boy beat a man of twenty-four; the older men had been eliminated several days before. The crowds and not the players, however, demonstrated the most important thing about tennis at the Forest Hills tournament. The stands were well filled every day and for the two big contests Tuesday and the day before they were packed. More than 7,000 persons witnessed these games, it was estimated. Only a few years ago the national championship tennis matches in this country were witnessed by only a handful of spectators. During the critical moments at this new, fast-moving game of the final two days at Forest Hills, moreover, the interest was so keen that the faces in the grandstands wore that tense expression that was so familiar at the Polo grounds in former years when the Giants had a good chance to pull ahead in the ninth inning.—New York Times.

HINDENBURG'S RESTING

Field Marshal von Hindenburg, according to dispatches, found or made, last week, a day of rest from the crushing military toils and more crushing responsibilities of commanding great armies and guiding and urging them on in pursuit of the Russians.

That the general should need rest, that he should welcome a change, even brief, from work that is rather dreadful even when done as efficiently as seems to be the Hindenburg way, is perfectly comprehensible. And one would naturally expect him to seek the quietest scene he could find with war so near—a scene with no reminder of death and destruction if one still exists in that part of the world—and there gratefully to relax his tired mind and muscles, either by doing nothing at all or by doing something with the least possible likeness to war.

But what he did was different. As a change from hunting men he hunted deer — did it all day long, close to where two of his great battles were fought. And again he was efficient. "He killed two fine stags," the dispatches say.

Inclination to comment on this use of the general's holiday is strong, but ability is disparate. The effort to do full justice to the episode almost inevitably would lead to the doing of injustice.—Exchange.

A SCRAMBLE FOR THE MOUNTAINS.

Politics is rising to the top in the minds of the men of the state who take any interest at all in the political situation. The gubernatorial campaign is the most interesting, and there promises to be a merry fight for the republican nomination. It is not likely that the democratic nomination will be so sought after. Frank O. Lowden heads the list of G. O. P. aspirants, and he is trailed by Frank L. Smith, ex-Warden Murphy, Congressman at Large B. M. Chaperfield, ex-Secretary of State "Tip" Doyle, and probably a half a dozen others. Some even whisper that Charles Deneen will run again and it has been reported from authoritative sources that Hugh Magill, who at one time was a candidate for U. S. senator and who was state senator from the Bureau county district, may be a candidate. There are many men of large calibre and high standard in the list of possibilities.

GIVE THE LINCOLN HIGHWAY A TRIAL.

Lee county again has something over \$20,000 to spend on concrete or brick roadway in the country. The county board must decide where that piece of road is to go. Were it not for the peculiar condition of things, the logical place to put it would be on the end of the present piece of state aid road, between Dixon and Lee Center, but under the circumstances, there is just one place where that piece of road should be built, and that is on the Lincoln Highway, between the Nachusa corners and Franklin Grove.

Just think of it! That piece of roadway is the worst piece of roadway between Dixon and New York City. Isn't that a fine record? There is as much traffic over that road as there is over any other road in the county—by our own taxpayers; and besides, there is the great amount of through traffic by tourists, and if Lee county is going to live down the stigma of having the worst roads in a thousand miles of Lincoln Highway, it is surely time she started to do something that will give her more favorable advertising.

CURRENT COMMENT

Peoria Transcript: The Wabash has been sold for \$18,000,000. The way to make money out of railroads is to buy under a democratic administration and sell under a republican administration.

Cairo Herald: Crop conditions around Cairo have never been better. The fruit crop is far above average. Alfalfa will yield five crops in most instances. Wheat and oats are banner crops, while corn never looked better, in most instances. The farmer, the truck man and the fruit grower are all enjoying prosperity which will be felt through all the avenues of trade in Cairo this fall.

Kankakee Republican: The postoffice department's quarterly statements are completed about five months after the close of each quarter. Perhaps this is not due so much to inefficiency as to a charitable desire to delay breaking bad news to the American people.

Bryan's timidity over asserting American rights does not seem to have struck a responsive chord in Germany. The latter has finally become fairly eager to uphold the American contention.

Bloomington Pantagraph: On reading the reply of the German chancellor, von Bethmann-Holweg, to Sir Edward Grey, the British foreign secretary, one is impressed with the devious turns and crooks of European diplomacy. Almost nothing appears to be direct and straight forward over there. If one diplomat wants to be candid and frank, the other credits him with a purpose far different and he is encouraged to resort to the occult and the sinister as the only way, rather than stand in the open. There is a sort of back door, or secret entrance to all negotiations and any number of hidden subterranean passages, leading in various directions. Doubt, suspicion, indirection, innuendo, insincerity, are apparently implied in all this interchange between the foreign secretaries of the great powers.

Peoria Transcript: Bryan remarks that fishing will be a popular pastime with democratic campaign managers if Root is made the republican nominee. There seems to be some professional jealousy between these executives of state.

Mattoon Journal Gazette: A political party with an emphatic weather plank in its platform would reach the height of popularity just now.

BELGIANS MIMIC GERMAN OFFICIALS

Brussels. (Correspondence of The Associated Press.)—Practical jokes continue to annoy the German authorities, who have considerable difficulty in putting down this form of insult to the invaders by the Belgian populace.

Machine guns were recently installed by the Germans on the roof of the Palais de Justice in order to command the Minimes and Marolles districts, where the toughest elements live. Immediately, as if by one thought, the people of the neighborhood mounted imitation guns made of stovepipe on their house tops, so that the whole district seemed to bristle with artillery.

Governor-General von Bissing made the jokers pay for their fun, however, at the rate of 15 marks for each offense. The official announcement of the fine accused the jokers of adopting "a method of railbery which could only be disastrous to the excellent relations existing between the civil population and the authorities."

MIXED IT ON COLONY GROUNDS

Warrants Sworn Out For Two Men Who Got Into Argument.

This forenoon before Justice A. H. Hanneken warrants were sworn out for Andrew Andricks and "Jim" John for disorderly conduct and fighting, the complainant being George E. Talcott. The men are employed in construction work at the epileptic colony and according to reports of the affray Andricks made a pass at John with a shovel. Sheriff Phillips served the warrants this afternoon and the men will be given a hearing late this afternoon or evening.

MCDERMOTT FINED ALSO.

Harold McDermott, who was implicated with Dale Emmert in a disturbance in the Dementtown restaurant Tuesday evening, changed his plea to guilty when arraigned before Justice Gehant Wednesday afternoon and was given the same fine as Emmert, \$10 and costs.

MILK PRICES AT ELGIN CUT

Wet Weather Causes Better Pasture but Less Consumption.

Elgin, Ill., Sept. 16.—Dairymen received a cut in the price of milk for the six months beginning Oct. 1 when contracts were offered by the Borden company. The average proposed is \$1.75 1/3 100 pounds, or 3 cents less than last year. The company also refused to take on new patrons and reduced the daily supply of old ones. Farmers who had demanded \$1.90 signed readily. The Milk Producers' association, representing the dairymen, is making no fight. According to Secretary W. J. Kittle, they were surprised that the cut was not greater.

Farmers say that they have an unusually large amount of rough feed, due to wet weather, and have no alternative but to sell at the price offered. Other large buying companies, which wait until the Borden prices are cut, did not post contracts.

DESCRIBES METHODS OF FRENCH AVIATORS

HUNGARIAN AIR MAN TELLS HOW FRENCH SQUAD-RONS WORK

BATTLES OF LARGE FLEETS

Budapest. (Correspondence of the Associated Press.) Some details of the mode of operations of the French aviators on the western front are given in a letter from a Hungarian aviator serving with the German arm in France.

"The French airmen," he writes, "now fly usually in flocks of considerable strength, both for reconnoitering purposes and for attacking our aviators who are on reconnaissance duty. As the French possess a huge number of machines and block our way systematically, we have had to follow their example. Some pitched battles between comparatively large fleets of aeroplanes are thus among the possibilities of the immediate future."

"When the French desire to prevent us from carrying out a reconnaissance, a dozen aeroplanes ascend to a height of 6,000 feet and patrol our line. An equal number rise to 9,000 feet and fly along our front, taking the opposite direction from the first group. Should one of our machines attempt to pass through the meshes of this net, the two French aviators who happen to be nearest attack it simultaneously, one from above, and the other from below. If that is not sufficient, two or more others fly to their assistance. The French adopt similar methods when they bombard our aviation centers, railway stations, and camps. The French air service is organized into what they call squadrons, which is thoroughly practiced in maneuvering together like a fleet at sea. In an attack on a German land position, the squadrons consist of a very powerful machine which leads the way, a few other scouts to see that the right direction is maintained, and then the bomb-carrying machines. The squad is handled very skillfully."

THE HOME OF HART SCHAFFNER & MARX

The Fall Style Parade is here. We're ready now—are you?

Autumn has "come back" with a profuse collection of fresh, rich fabrics and smart new styles that will prove a rare delight to discriminating men and young men. Of first importance to style lovers are the new

Hart Schaffner & Marx Varsity Fifty-Five designs

Here are the most popular suits in America; designed for young men, but suitable for any man young in spirit. Much of the secret of smartness in these suits is that they keep well on the side of propriety without appearing too conservative. You'll like the two and three button coats; the new ideas in vests; the snappy Glen Urquhart overplaid. You'll be enthusiastic about them all, just as we are.

NOTHING THAT WE HAVE EVER DONE AT THIS STORE HAS EVER AWAKENED SUCH A VOLUME OF PLEASED APPROVAL AS THE INTRODUCTION OF

FASHION PARK CLOTHES

Some of the new models are almost "audacious" in good style—others as conservative as you please. They're full of individuality—they radiate good style at every point, not just in spots. Come here expecting to see something worth while in these clothes. You'll not be disappointed

As to the detail of style for fall—

THE COAT would be called short rather than long, although a wide range of models allows of a choice in this particular. Shoulders are a bit more square—rather militant in effect, the world's greatest war being responsible for this feature. Sleeves taper a trifle from shoulder to cuff. The soft roll lapel is correct. THE TROUSERS should hang straight from the hips—its good style but not extreme. They're a trifle roomier than heretofore, not an extreme tight English cut. The trousers should break slightly over the instep—a trifling point but too important to be ignored. There is considerable latitude in the choice of A VEST; it may be plain as heretofore or a graduated double-breasted with one button at the bottom or a tab pocket style with collar. They're built in slightly at the waist to give the full chested effect. Make sure your COLLAR AND TIE are "in tune"—they are important. Our assortments will help you as they're always new and include the correct thing.

If your price for a suit is between \$10 and \$50, come here for it. Ready-to-wear suits, in stock, \$10 to \$30.
Suits made to your individual measure \$13.75 to \$50.

Consider this more as an invitation than an advertisement. You are invited to come and see the new things—NOW.

GERMAN BOLT IS SHOT, KITCHENER

Advance in Russia Now Less Than Mile a Day.

WAR SECRETARY OPTIMISTIC

Seventeen Miles of Trenches Taken Over From French Defenders—Asquith Asks Another \$1,250,000,000 War Credit—800,000 Work on Munitions—Gain in Dardanelles.

London, Sept. 16.—"The Germans appear almost to have shot their bolt," said Earl Kitchener, secretary for war. "Their advance in Russia, which at one time averaged five miles a day, has diminished to less than one mile a day."

Earl Kitchener's statement was made in a review of the war in the house of lords.

"The response of the country to calls for recruits has been little short of marvelous," he said, "but the problem how to insure the field force being kept at full strength is engaging our close attention and will, I hope, soon receive a practical solution. I do not for one instant doubt that whatever sacrifice may prove necessary will be undertaken cheerfully by our people."

This was the only part of Earl Kitchener's speech which might be regarded as a reference to the possibility of conscription.

Britain to Vote \$1,250,000,000 More.

London, Sept. 16.—Premier Asquith asked the house of commons to vote a new war credit of \$1,250,000,000. This is the seventh vote of credit moved since the war began. It brings up the total to \$6,310,000,000.

The premier in a review of the financial and military situation made the following principal statements:

Nearly 3,000,000 men have thus far enlisted in Britain.

The average daily cost of the war during the last five months was as follows: From April 1 to the end of June \$13,500,000; from July 1 to 17, \$15,000,000; from July 18 to Sept. 18, \$17,500,000. The total cost for that period thus was about \$2,500,000,000.

The government has repaid \$250,000,000 to the Bank of England, has loaned \$150,000,000 to foreign governments and \$140,000,000 to the Dominions.

Some expenditures "incurred for the purpose of financing necessary operations," Premier Asquith explained, would not be disclosed because to do so would be contrary to the public interest. Part of this amount, he said, was to be repaid in the course of a few months, and the remainder represented advances for future expenditures.

Great Britain's weekly gross expenditure would not exceed \$175,000,000. The new war credit is expected to carry Britain through to the third week of November.

800,000 Making British Munitions.

The British government now controls 715 establishments producing munitions. The ministry of munitions has established twenty shell factories and eighteen more are being constructed. In the government controlled factories 800,000 workmen are now employed. Labor, skilled and unskilled, is still sorely in demand. The premier asserted there was no other field in which women could be of greater use to their country.

Premier Asquith deplored the fact that recruiting, "while on the whole, it has kept up well, has fallen off during the last few weeks."

Russ Army Unbroken.

The British premier in reviewing the military situation was emphatic in his assertion that "Russia's army remains unbroken." He said that the British lines in France and Flanders had been strengthened everywhere by men and munitions and that a considerable extension of lines had been taken over from the French.

Gain in Dardanelles.

In the Dardanelles, he said, the British now hold a front of more than twelve miles. They have made substantial gains, he added, "though they have not succeeded in dislodging the Turks from the crest of the hills."

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works, Sterling, Illinois.

The Black Silk Air-Drying Iron Enamel on grades, registers, stove tops. Prevents rusting. The Black Silk Metal Polish for silver, nickel or brass. It has no equal for modern automobiles.

SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance.

Free use of garage.

Dramatic Notes

FAMILY THEATRE.

Manager Plein calls particular attention to the program arranged for the last four days of the current week which is a worthy successor to the series of splendid programs seen at this house in the past number of weeks. Novelty, comedy and real class are all found in the new program which is real vaudeville speed.

As a special attraction the Sidonias great comedy act has been secured.

The dainty offering of the evening is the Misses Adams & Ellis, who present music on violin and piano in artistic and delightful numbers which is guaranteed to be found entertaining by all.

Keegan & Ellsworth, the "Smart Duo" of vaudeville, live up to the title in every detail. They have a line of smart songs and chatter original in every line. Some gorgeous wardrobe worn by Miss Ellsworth will be the envy or delight of the ladies but with her winning personality she adds hosts of friends to her now endless string.

The motion picture program will be changed daily and is of the usual high grade always seen at the Family. Tonight will be shown: "The Smoulder-

ing," a two reel drama, and "Sam's Romance," featuring Ham and Bud.

PRINCESS THEATRE.

"A Leap for Life," a two reel Redeo feature, will be shown at the Princess tonight. This is a western story wonderfully related by an all star cast of fine players, with plenty of thrills and excitement. The other pictures are a Falstaff comedy entitled "That Damn Cow" with Riley Chamberlain and Leo Post in the cladding roles, a delightfully humorous comedy; and a Reliance drama entitled "The Turning Point," with Ralph Lewis and Mac March in the leading roles, a thrilling story of a plot against the government.

BOUNTY FUND OMITTED.

In giving the list of items in the tax levy resolution passed by the board of supervisors the amount appropriated to pay death and birth certificates together with wolf and sparrow bounties amounting to \$1,000 was omitted and the amount as fixed to cover the expense of holding elections was \$4,500 instead of \$1,000 as given. The total amount of the levy as given was correct.

Messrs. Charles McCarthy, Frank Ring, and Thomas Wilson of this city enjoyed a launch ride to Sterling Wednesday in the former's launch. Mr. and Mrs. J. E. Byington are in Clinton, Ia., this week, where Mr. Byington is in charge of some work upon pipe organs there.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Mrs. Holloway of Wisconsin is visiting her son, H. E. Holloway, the station agent at Eldena.

Charles Lievan has returned home from North Dakota where he was looking after his land interests.

WILSON RECALLS ENVOYS TO VILLA

All Americans Ordered Out of Sonora and Chihuahua.

CARRANZA RECOGNITION SEEN

Covert Threat of Bandit Leader that His Men Would Be Compelled to Resume Banditry is Called by Washington—"Independence Day" Being Celebrated.

Washington, Sept. 16.—President Wilson has recalled all American consuls from the states of Sonora and Chihuahua in Mexico. At the same time all American citizens in these two states are ordered to depart immediately. It is believed here that some of the United States representatives and many of its nationals already are on their way out of the Mexican province.

Sonora and Chihuahua are the two states controlled by General Villa. It is whispered in official circles that Villa's statement to President Wilson's representatives that he could not control the lawless bands roving the two states under his jurisdiction is the immediate cause of this government's action.

Carothers to Remain.
The only representative of the United States that will not be affected by the recall order is George C. Carothers, President Wilson's personal special agent. Carothers is now with Villa himself, and he will be the only American official to remain in Villa territory.

Certain officials here profess to see a subtle meaning in the notice to consuls. They claim it foreshadows ultimate recognition for General Carranza. Villa's representatives here refuse to discuss the United States' move.

Border Situation Watched.
Meanwhile Washington officialdom is keeping an anxious eye on the situation at the border. Today, Sept. 16, is the Mexican "Independence day" celebration of which anniversary already has begun.

Dispatches from Brownsville telling of an alleged Mexican plot to attempt to capture the city of Brownsville, Tex., to commemorate the "Independence day" celebration caused great concern. It is feared there may be an organized attempt to outrage Americans. War department officials have been on the alert since ready to cope with any emergency.

TRAGEDY PURSUES FAMILY

Miss Fenley's Suicide Link in Untimely Death Chain.

Louisville, Sept. 16.—The suicide in New York of Miss Elizabeth Fenley, daughter of Oscar Fenley, one of the most prominent bankers in Kentucky, adds one more tragedy to a family that has become famous here for its misfortunes.

Miss Fenley's mother, two sisters and two aunts were killed in a railroad wreck in 1892. Miss Fenley, then seven years old, was crippled for life in the accident. She was the only member of the family to escape death. Tobias Richardson, an uncle, and his entire family lost their lives in a steamboat explosion on the Mississippi river. William Richardson, another uncle had both legs cut off by a train.

GERMANS OUSTED IN AFRICA

French and British Troops Take Most of Kaiser's Territory.

Paris, Sept. 16.—French colonial troops, aided by the British, fighting on a front of more than 2,000 miles in Africa, have taken almost all the German possessions in that territory, said Gaston Doumergue, minister of the colonies.

German East Africa and a small part of the Kameruns alone remain in the hands of the Teutons.

Page Insures Against Zeppelins.

London, Sept. 16.—Ambassador Page has taken out a policy insuring his residence against damage by Zeppelins. It is understood that the ambassador has leased the home for a period of years, and some of its valuable furnishings are owned by him.

Who Warns of Dangerous Drivers?
Dixon, Ill., Sept. 16.—Warning signs, advising automobilists of dangerous turns, have been placed this week in Dixon by the public health and safety department.

New Depot is Finished.
Mackinaw, Ill., Sept. 16.—The Big Four Railroad company has just completed a new depot which has been under construction during the summer.

Jake Stahl's Mother is Dead.
Lincoln, Ill., Sept. 16.—Mrs. Lydia Stahl, mother of Garland ("Jake") Stahl, baseball star, is dead at her home in Elkhart, aged seventy-two.

WITNESS AFTER WITNESS IN DIXON

SUCH EVIDENCE OUR READERS CANNOT DISPUTE

As we take up the Telegraph week by week, we are struck by the hearty unmistakable way in which witness after witness speaks out as Mrs. Fine does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

Mrs. J. L. Fine, 1006 Peoria Ave., Dixon says: "I have suffered for years from kidney trouble. My back ached and pained so severely that I had to stay in bed. I had headaches and dizzy spells and specks appeared before my eyes. My wrists and ankles also swelled. I procured Doan's Kidney Pills at Leake Bros. Co's. Drug store and they helped me. They have never failed to give satisfactory results.

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fine had. Foster-Milburn Co., Props., Buffalo, N. Y.

AMERICAN IS HELPING

Continued from Page 1

the women had even been devoting their time to sewing and making clothing for Russian soldiers. For a large percentage of them a return to Germany where all their associations had long been broken or seclusion in the interior of Russia were alternatives offering an equally dismal prospect. Conditions Are Vile.

Except in extreme cases, serious illness and infirmity do not interfere with the deporting of the patient. Crowded into trains commonly used for cattle, almost without food, scantily clad and in various conditions of disease and despair, these miserable persons are subjected to a railway journey which lasts for days, and in a great many cases are forced to march overland for 60 or 70 miles from the railroad station to the camp where they are to be interned.

The sanitary conditions on these trains are vile and there is every possibility for the spread of the disease. There is no assistance for the sick and there is no protection against infection for those who are well. On the march from the railroad to the camp, large numbers have frozen to death along the way. The lot of these people is one which it would be difficult to exaggerate.

Mr. Snodgrass is at present trying to convince the governors of the various provinces that their co-operation is necessary, unless the condition of the German civil prisoners in Russia is to become a glaring national scandal.

DEATH THREATS TO LOAN ENVOYS

(Continued from page 1)

The movements of the members of the mission were well guarded. Their meetings at the New York clearing house have been cancelled and they now have a very strong detail of private detectives and secret service men protecting them. This is because of the threatening letters which have descended upon them. The letters written principally in English but in a foreign hand run the scale from protest to threats of violent death. The various members do not see these communications, all being held by the secretaries, but a batch of them was turned over to Police Commissioner Woods and others are to go to the postoffice inspectors. The affair has resulted in the additional detectives and suggestions that they

do not pick out a meeting place nor travel in a body. When any one goes out now he has his special body guard. Although the publication of the fact that some letters have been received will bring down many more from the feeble minded, it was thought best to do this in order to let it be known that there can be no stated meetings nor appointments announced before hand. The members of the mission are neither frightened nor deterred from going about their business.

Hill to Buy Heavily.

A prominent banker who is in close touch with James J. Hill said that Mr. Hill has pledged himself to take a large block of the British short term bonds. He added that Mr. Hill also had promised that the banking institutions and other investing enterprises with which he is connected throughout the west would take their share. He added that his advice from the section of the country, from Minneapolis west to the coast, from banking institutions and other responsible establishments was most satisfactory and that interest in the loan would increase as the farmers came to know the importance of it to their material welfare.

ILLINOIS COAL MEN IN PLEA

Assert That Recent Rate Decision Gives Them Unfair Competition.

Washington, Sept. 16.—W. E. Lamb, representing coal operators in southern Illinois, prepared to file with the interstate commerce commission a petition for reopening of the western advance freight rate case.

Southern Illinois coal operators claim the recent decision of the commission, which increased rates from their mines in every direction, but did not increase rates on coal shipped to the same points through lake ports, has discriminated against them.

Redfield Will Keep Post.

Washington, Sept. 16.—William C. Redfield, secretary of commerce, will not lose his position as a result of the difficulties he got into in Chicago during his investigation of the Eastland catastrophe. After a call at the White House, where he spent more than an hour with the president, Mr. Redfield characterized the reports that he would be asked to resign or that he would resign as "fakes."

Directum Sets Record.

Syracuse, N. Y., Sept. 16.—Directum I, driven by Murphy, hung up a new world's record for pacers. He went the mile in 1:56 3/4, in an exhibition event. Time by quarters: 0:29 1/2, 0:58 1/4, 1:27 and 1:56 3/4.

SUBSEA ISSUE TO BE SETTLED IN 2 WEEKS

No Doubt of It, Says Ambassador Bernstorff.

New York, Sept. 16.—Assurance that negotiations between Germany and the United States concerning German guarantees of safety for American ships and passengers will come to a stop for two weeks is made by Count Von Bernstorff, the German ambassador. The ambassador seemed to deplore the anxiety of the American people as to the outcome of the German-American diplomatic exchanges.

"Why should Americans be nervous?" inquired Count Von Bernstorff. "What is there to be nervous over? I state positively that everything will be settled within a fortnight. The people must simply have patience and wait."

Washington, Sept. 16.—Secretary Lansing announces that the state department has forwarded to Ambassador Gerard the evidence in its possession on the sinking of the Arabic. No representations accompanied the report which was submitted for information of the German government at Ambassador Bernstorff's request because his government had heard only one side of the incident.

NEW LAKE VESSEL LAUNCHED

Albert Goodrich III Christens the Freighter Nevada.

Manitowoc, Wis., Sept. 16.—Flag-decked and wine-spattered, the new steamer Nevada, Uncle Sam's latest addition to his inland merchant marine, was launched here. Albert Goodrich III of Chicago, grandson of the founder of the Goodrich Steamship line, christened the big ice-crushing freighter. From the decks of the steamer Alabama the launching was witnessed by 150 Chicagoans and railroad and steamship officials of the great lakes.

The Nevada will enter the Chicago-Michigan service in December.

PLAN RURAL CREDITS BILL

Officials of American Farmers' Organizations to Draw Up Measure.

Peoria, Ill., Sept. 16.—Oliver Wilson, master of the National Grange and chairman of the legislative committee of that organization, announces a joint conference of the legislative committee and officers of the three great farmers' organizations of America to draft a rural credits bill for presentation to the next congress. The conference will be held in Washington, D. C., on Oct. 5.

The organizations to be represented are the National Farmers' union, the American Society of Equity and the National Grange.
